GENERAL INFORMATION

Welcome to the 50th International Conference on Microelectronics, Devices and Materials, (MIDEM 2014). This conference continues the tradition of an annual international meeting organized by *the MIDEM society - Society for Microelectronics, Electronic Components and Materials*. Our golden anniversary conference is organized under the honorary patronage of his excellency Mr. Borut Pahor, the President of the Republic of Slovenia that we gratefully acknowledge. This is a great honour and a huge motivation for our society and all its members.

It started exactly 49 years ago, on 8th October 1965 with the first Yugoslav conference on microelectronics that was organized in Ljubljana.

The MIDEM conferences have always attracted a large number of Slovene and foreign researchers from academia and experts from industry and hosted distinguished invited speakers. Participants have the opportunity to present their R&D activities and latest results and to discuss trends and problems dur-

ing sessions and breaks. This year, 56 peer reviewed regular papers and seven invited papers will be presented over the three days, 8 – 10 October 2014.

The MIDEV 2014 conference contributions are grouped into six sessions: Materials, technology and devices; Electronics; Optoelectronics; Thin and Thick Films; Integrated Circuits and System on Chip and Sensors and MEMS. Invited speakers will talk about new approaches in LTCC sensors and systems, heterogeneous multi-processor system-on-chip for modern cyber-physical systems, integrated Hall magnetic angle sensors, antiferroelectrics as new materials for ceramic power devices, analog design techniques in nanometer CMOSA technologies, high efficiency solar cells and methods to measure degradation of power VDMOSFETs.

We would like to express our thanks to the invited speakers and all authors for their valuable scientific contributions to the conference. The members of the Conference Programme Committee, who made the review of the contributions, are sincerely acknowledged. We also thank all the Session Chairs and the members of the Conference Organizing Committee, who did their best to make the conference a success.

To celebrate the golden 50th conference in a row we organize an evening celebration event with distinguished guests and representatives from academia and industry to highlight some of the most outstanding R&D achievements in the last five decades.

We hope that you will remember this conference not only for the importance of the scientific achievements and discussions not the golden anniversary, but also for new friendships and vivid memories of Ljubljana and Slovenia.

We cordially wish you an enjoyable conference and pleasant stay in Ljubljana.

Professor Marko Topic
Chairman of the MIDEV Conference 2014
